### INSTRUCTIONS

1. Apply a thin coat of gel medium to the canvas. Place transparency printed side down and rub with your fingers. Slowly peel up transparency to reveal your transferred image. Let the gel medium dry.
2. Highlight the transfer and embellish the canvas with the Sakura Cray-Pas Oil Pastels.
3. Blend the Cray-Pas with your fingers and/or a rag.
4. Apply watercolor all over the surface of the canvas. The areas with Cray-Pas will resist the watercolor.
5. Load your brush with paint and water and bang your paintbrush against the Sakura Pigma Micron pen, while over your canvas, to create droplets of paint.
6. Stamp your favorite quote onto the canvas. Use a Sakura Pigma Micron pen to add punctuation and other embellishments.
