

Eco Green Crafts Project

by Julie Fei-Fan Balzer

1. Paint both pages with a generous coating of Melon Eco Green Crafts acrylic paint.
2. While the paint is wet press ripped book pages into it. The paint will act as an adhesive.
3. Once the paint is dry, apply a mix of White Eco Green Crafts acrylic paint and water over the entire surface.
4. While the paint is still wet rub Coral Eco Green Crafts acrylic paint into portions of the page. Add more White as necessary.
5. Once the paint is dry, water down some Black Eco Green Crafts acrylic paint and add splats across the page.
6. Let dry.
7. Paint two medium sized Eco Green Crafts Embellishing Die Cuts (Circles) with Coral and Primary Yellow Eco Green Crafts acrylic paint. The yellow should be the final layer.
8. Let dry.
9. Once dry, cut the circles in half with scissors.
10. Color the edges of the circles with a black crayon and smudge a bit.
11. Adhere Eco Green Crafts Black Glass

Glitz to the spread in groupings. Use Eco Green Crafts All-Purpose Green Glue.

12. Adhere photos (slightly smaller than 3"x3") to spread and then yellow half-circles over the photos. Use Eco Green Crafts All-Purpose Green Glue.
13. Using a very small paintbrush, paint

your journaling onto the remaining space on the page and you're done!

There are two examples of pages using these same supplies on the next page....
