

USING MOULDS WITH EMBOSSING POWDERS

MATERIALS NEEDED :

WOW Embossing Powder in Bright White
WOW Clear stamps, Funky Border Strips
Acrylic Block
Versamark Ink
Versamagic Ink in Turquoise Gem, Oasis Green and Aquatic Splash
Heat Gun
Silicone Moulds
Melt Pot or Tin Foil Cases
Peg
White pre scored card
Scrap white card
Mica Powder
Small Paint Brush
Double Sided Tape
Glossy Accents

INSTRUCTIONS :

Cut three strips of white card approx. 1" x 4.25", 1" x 4.75" and 1" x 5.25"

Ink up Text Border Strip with Versamark and stamp onto strip, apply Bright White embossing powder, shake off excess and heat, repeat this on the other two strips

Once cool, rub one of the Versamagics over the stamped design, the embossed areas will "resist" the ink, repeat this with the other two colours.

Apply double sided tape and adhere to card.

Either melt the Bright White embossing powder in the Melt Pot or in a Tin Foil Case using a peg to hold it.

Brush some Mica Powder inside the silicone Mould and then pour the melted powder in the mould, repeat this process two more times.

Adhere the flowers to the ends of the strips using Glossy Accents
