

PEN-TOUCH PENCILS

Supplies:

- Pencils
- Washi Tape
- Sakura Pen-touch pens
- Palette Paper
- Scissors

Instructions:

1. Place two pieces of washi tape, longer than a pencil, onto a piece of palette paper.
2. Doodle on the tape with the Sakura Pen-touch pens. Use a combination of tip sizes for best results.
3. Carefully peel one end of the two strips (together) off the palette paper and cut the end so that it's straight.
4. Peel the tape all the way off the palette paper and place it sticky side up.
5. Place the pencil so that the bottom of the metal thingy on the pencil lines up with the cut end of the washi tape. Trim off the excess tape at the bottom of the pencil.
6. Wrap the tape around the pencil, overlapping the two sides.
7. You can sharpen the pencil in an electric pencil sharpener, but the ends of the tape may get a bit frayed.
