INSTRUCTIONS

1. Use black watercolor paint and a soft brush to paint a circle and your title. You can also splash some paint dots. TIP: Spray your watercolors with water to get them nice and juicy before you paint. Let dry or dry with a heat gun.
2. Doodle flowers using a Sakura Pigma Micron .08 on a book page.
3. Using the Koi Coloring Brush markers, color the centers of the flowers yellow. Use two shades of blue to color the petals. The blues will blend for a painterly look if you work quickly.

4. Layer some of the flowers out. Don't worry about being careful. You can leave a little uneven outline area.
5. Layer some of the flowers
